Inspiring ideas for your home

Along with quality we have not forgotten style. Whether you live in a traditional or modern home we have a design to suit. In this brochure you are sure to find a style to your taste with a vast range of colours, woodgrain finishes, glass options and hardware. Every door will be tailored to your requirements.

All our doors comply with the latest building products regulations and we are BSI registered which assures you of our commitment to each and every door.

All doors come complete with:

- Fully reinforced 70mm PVC-U outer frame
- A full multipoint locking system with anti-bump cylinder, keeps and handles
- Doors can be prehung left or right handed to your requirements
- All double glazed units are made to EN1279 for added security and insulation
- Secured by Design approved specification available on request
- All doorsets come with a 10 year guarantee
- We can supply a range of extras including door viewers, numerals, cills and knockers

Fibreglass Doors

The best of all doors

Fibreglass is best described as a combination of the top attributes of all types of modern door materials. Unlike some other types of material, fibreglass will not splinter, dent or rust assuring you of a sound investment for your property.

Fibreglass doors are finely crafted to replicate the appearance of wood. Our doors combine the elegance of timber with the high performance thermal and security aspects you would expect.

For many years fibreglass has been used for boat building, army tanks and formula one cars and now the material has been extended to exterior doorsets.

Please note that the woodgrain on the fibreglass door is not an exact colour match to the PVC-U woodgrain frames.

Each door is made-to-measure to ensure the exact size and shape for your property. Once installed it will never need re-adjusting.

Fibreglass is low maintenance. The skin of the door is through colour (the colour continues right through the face) which means it never needs painting and all it takes is an occasional wipe down with a cloth to keep it looking its best. All doors are supplied in your choice of colour.

Door construction

- 1 Strong through coloured GRP facing
- 2 Composite material inner frame
- 3 Full face hinge and lock plates
- 4 High insulation foam core
- 5 Dedicated 70mm reinforced PVC-U frame
- 6 Slim, low step over aluminium threshold with twin seals

Thermal Efficiency

All SAFEDOORS are assessed under a scheme by the British Fenestration Rating Council (BFRC) called the Door Set Energy Ratings Scheme (DSER).

This scheme follows a familiar rating system often found in common household items such as fridges and televisions. The scheme shows how energy efficient each door is on a sliding scale 'A++' rated being the highest achievable.

This rating is increasingly important as it could reduce your heating bills significantly by less heat escaping through an ill fitting or thermally inefficient doorset.

SAFEDOORS has 8 styles that have achieved an A rating. The other styles, because they have a larger area of glass in the door have a very creditable B rating.

So SAFEDOORS not only keep your property warm but should reduce your energy bills.

8 styles A rated classified doors with less than 5% of glass area.

9 styles B rated classified doors with 5% to 20% glass. Requires Low E glass.

*Estimated values

Ideas and options

Our fibreglass doors are all at the top of the tables for thermal efficiency.

We offer a top light or side light panel to all doorsets for wider or taller entrances.

All our doors open inwards as standard. Please let us know if you want it to open out.

All fibreglass doors come with a white inside face. However, woodgrain is available both sides upon request.

All doors come with a 10 year guarantee which with the British weather is very welcome.

The greater the glass area in the door the lighter your hallway or entrance will be.

Many of our glazing designs offer bevelled glass adding that 3D effect to your door design. New glass options available.

All our doors feature a multipoint lock with hook and bolts top and bottom for added security. As standard all doors have an anti-bump cylinder.

Cheltenham

This classic style door continues to remain one of our most popular designs. The simplistic style is brought to life by the exciting glass designs which can reflect your individual style.

Glass options

*The main feature in the glazing is available in red, blue, green or black. N.B. we create this stunning coloured effect through a mix of colours (not solid) to complement the door. **Diamond style glass available in black, green, blue, red or clear. ***Satin etched glass.

Colour options

All colours are a visual representation only. Please ask for samples if you would like to see accurate swatches. Please note all colours are provided with a white internal face and frame.

Cheltenham Arch

A variation on the popular Cheltenham style with an arch top to the glass cassette. This allows plenty of light into the entrance area whilst still retaining privacy.

Glass options

*The main feature in the glazing is available in red, blue, green or black. N.B. we create this stunning coloured effect through a mix of colours (not solid) to complement the door. **Diamond style glass available in black, green, blue, red or clear. ***Satin etched glass.

Fire Doors

Peace of mind

Our 30 minute fire doors have been designed to the highest specifications and tested to comply with the exacting standards of BS476 Parts 22 and 31.

As well as offering 30 minute fire resistance we are also able to offer a contemporary range of styles as shown below.

Glass options

The Fire door has the choice of a Georgian wired polished plate glass with either Stippolyte, Cotswold, Minster or Clear to the rear.

Colour options

White

Blue

Green

Red

Black

All colours are a visual representation only. Please ask for samples if you would like to see accurate swatches. Please note all colours are provided with a white internal face and frame.

The doors are designed for most situations where building regulations require a fully approved FD30S fire doorset such as flats, shared entrances, links from house to garage, and multiple entrance dwellings.

The glazing options are Georgian Wired Polished Plate with clear glass to back, or Georgian Wired Polished Plate with Cotswold, Minster or Stippolyte to the back. All FD30S fire doors are supplied in PVC-U frames and with double glazed sidelights and toplights as required.

N.B. The fire door is available with a limited range of door furniture, please ask for more details.
All fire doors must be fitted with a suitable door closer.

Side Panels

Adding side panels to your home's front entrance can really create a feeling of grandeur. Used on either or both sides of the door the extra glazed areas allow more light into your home.

Glass options

For narrow and wider entrances where a composite side panel is not suitable, or for those requiring more light, we are able to offer a selection of glazed side light combinations.

*The main feature in the glazing is available in red, blue, green or black. N.B. we create this stunning coloured effect through a mix of colours (not solid) to complement the door.
Diamond style glass available in black, green, blue, red or clear. *Satin etched glass.

N.B. Sidelights only available in a width of 457mm to 477mm.

Colour options

All colours are a visual representation only. Please ask for samples if you would like to see accurate swatches. Please note all colours are provided with a white internal face and frame with the exception of Antique Oak and Rosewood which are available with a white or matching internal face and wood effect frame.

The Final Furnishings

Once you have decided on your door style, colour and glass design you can really add the finishing touches with our stunning range of suited hardware.

Complement your door with a choice of Gold, Chrome, Black, Satin Chrome, or White hardware. Singular spyholes are also available in a choice of Brass, Chrome, White or Black finishes. We offer a weather bar on all our doors which helps protect the door during rain and snow storms. Weather bars are available to match the door colour.

Lever/Lever Handle

N.B. Lever Pad or offset Lever / Lever also available.

Urn Knocker (All available with spyhole*)

*Spyhole barrel finish available in a choice of Brass, Chrome, White or Black.

Letter Plate

Pony Tail Knocker

Leaded and Clear Glass Designs

As well as offering our stunning new range of glazing options we also offer a selection of leaded and clear styles for those wanting a more simplistic finish. All clear and leaded designs have a choice of backing glass (Clear, Minster, Cotswold, Stippolyte and Autumn). Other glass designs are available subject to a longer lead time.

Questions Answered

Who makes my door?

We are the original composite door company and have been manufacturing doors for 25 years. We have been manufacturing doors in the UK for households across the country for over two decades and have more experience than any other company in making sure your order satisfies your requirements. In fact we have manufactured over a million doorsets in that time.

What guarantee does my door come with?

We guarantee EVERY door for 10 years from the date of installation giving you peace of mind in your investment.

What security aspects does my door come with?

We always fit the latest high security locking devices available to us. Each door comes with a full multipoint locking system which means that the door locks in three places along the opening section giving that extra

strength against the frame of the door. If you would like to upgrade to the Secured by Design specification recommended by the police authority then please let us know when you place your order.

Are you environmentally friendly?

Yes indeed we take our environmental responsibilities seriously. We have the ability to recycle all our offcut material. Added to that we use recycled material (RCM) as a reinforcer in our door frames providing you with superior strength as well as offering a more sustainable substitute to steel.

Are the doors thermally efficient?

Yes we have worked hard to constantly improve the U-values of our doors. The U-value signifies the thermal efficiency of the door the lower the value the better the door. We have achieved some of the lowest values in the marketplace meaning that your heating bills will be lower and your house warmer.

What hardware can I choose?

We are able to supply a full range of hardware to suit your chosen door design. We offer a suited approach which means that all hardware matches whatever you order. Choose from a knocker, letterplate, numerals and spyhole. All designs come in a choice of Gold, Chrome, Black, White or Satin Chrome.

Glass choices

We offer a clear backing glass as standard. All our double glazed units are fitted with a high energy efficient and elegant black spacer bar as standard.

What colour door can I order?

Most designs are available in Red, Blue, Green, White and Black plus two woodgrain effects of Rosewood and Antique Oak. The inside of the door will be white unless otherwise stated. Woodgrain finishes may vary from door to door as like timber painting or staining the process may result in some slight variation in colour. This adds to the aesthetics of the door finish.

Does the door open to the right or left?

When your order is taken you will be given the choice of having the hinges on the left or right hand side.

Is the door compliant?

Yes indeed all our doors are fully compliant to the latest building regulations. You can also be assured that we are a BSI registered company which means that our management and quality control are right up to date throughout the manufacturing process. All doors have a rating of 1.5 W/m²/K or less and thus conform to the latest building regulations.
